Lakeshore Regional Entity Board Financial Officer Report for December 2024 12/18/2024

- **Disbursements Report** A motion is requested to approve the November 2024 disbursements. A summary of those disbursements is included as an attachment.
- Statement of Activities Report through October is included as an attachment.
- LRE Combined Monthly FSR The October LRE Combined Monthly FSR Report is included as an attachment for this month's meeting. Expense projections, as reported by each CMHSP, are noted. An actual surplus through October of \$905 thousand, a projected annual deficit of \$2 million, and a budgeted surplus of \$1.3 million regionally (Medicaid and HMP, excluding CCBHC) is shown in this month's report. All CMHSPs have an actual surplus except Network180 who has a deficit of \$2 million. CMH of Ottawa County and West Michigan CMH are projecting to breakeven. HealthWest, Network180, and OnPoint have projected deficits. All CMHSPs have a budgeted surplus or breakeven, except OnPoint with a budgeted deficit of \$268 thousand.

CCBHC activity (excluding PIHP activity) is included in this month's report showing an actual **surplus** of \$932 thousand (excluding LRE activity), which is the responsibility of the CCBHCs and not the PIHP. A projected **surplus** of \$5.4 million and a budgeted **deficit** of \$2.2 million is shown.

- Cash Flow Issues No CMHSP has reported cash flow issues in the last month.
- FY 2022 MDHHS Cost Settlement Update will be provided by legal counsel.
- FY 2025 Revenue Projections Updated revenue and membership projections by program and Member CMHSP are below. The FY25 November revenue projection increased \$310,066 from the FY25 October projections. This change was exclusive <u>of</u> CCHBC. There were subsequent updates made to CCBCH daily visits for Network 180 and minor updates for Ottawa. This CCBHC update resulted in a projected increase of \$2,624,507 for the region. <u>So</u> in total November Projections increase \$2,934,574. Most of this increase will be seen in the CCBHC funding buckets, especially CCBHC supplemental and will therefore be contingent on meeting daily visit projections.

Budgeting Process

- Annual budget must be presented to the LRE Board of Directors for approval prior to the beginning of the fiscal year.
- Per Michigan legislation a public hearing on our proposed budget is required.
 - Notice of the hearing shall be by publication in newspapers of general circulation within our local area at least six (6) days before the hearing.
 - Must include time and place of the hearing and state the place where a copy of the budget is available for public inspection.
- Amendments to the budget must be prepared and presented to the Board for approval prior to expenditures being made and prior to year-end.

Encounter Quality Initiative (EQI)

- State-mandated report that includes service cost and utilization data by code and fund source
 - Service code and modifier
 - Direct-Run and Contracted service costs
 - Fee-for-Service and Non-Fee-for-Service (optional)
- CMHSPs and PIHPs complete EQI reports 3 times per year
- Should tie-out to other year-end reports, including the Medicaid FSR bundle
- EQI data and other factors impact capitation rates
- Working with CMHs to improve accuracy and timeliness of reporting

Medical Loss Ratio (MLR) Report

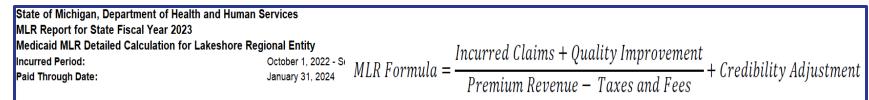

- In general, the MLR calculation is defined as the sum of incurred claims and quality improvement expenses divided by premium revenue that is reduced by taxes and regulatory fees. Additionally, a credibility adjustment is applied to this formula to account for random statistical variations related to the number of enrollees in a PIHP.
- All Medicaid managed care programs must calculate and report a MLR in accordance with 42 CFR 438.8, medical loss ratio standards.
- The MLR for PIHPs, as calculated and reported, must be used in the development of actuarially sound capitation rates.
 - Used to assess whether capitation rates are appropriately set by generally illustrating how these funds are spent on claims and quality improvement activities as compared to administrative expenses, demonstrating that adequate amounts under the capitation payments are spent on services for enrollees.
- Per the Centers for Medicare & Medicaid Services (CMS), MLR reporting standards result in responsible fiscal stewardship of total Medicaid expenditures, ensuring that states have insight and understanding into how capitation payments made for enrollees in managed care programs are being expended.
- States are not required to collect capitation rate refunds when PIHP MLRs are below a minimum requirement. States are given flexibility to determine the minimum MLR requirement, as long as the minimum MLR percentage is at least as high as the CMS guidelines of 85%. Contract between MDHHS and the PIHPs does not include a remittance amount for the SFY 2024 contract if the MLR is below 85%.
